

Commercial Plumbing Specialists

Residential • Commercial • Civil • Maintenance

Proudly servicing Parkes, Forbes & the Central West

General Plumbing Maintenance

Crowey's Plumbing provides reliable general plumbing and maintenance services to keep properties running smoothly and prevent costly issues. We manage plumbing tasks efficiently, ensuring all work is compliant, safe, and completed with minimal disruption.

What We Cover:

- General plumbing repairs
- Leaking taps and toilets
- Pipe repairs and replacements
- Water pressure issues
- Ongoing maintenance plumbing
- Residential & Commercial support

Hot Water System Install & Repairs

Crowey's Plumbing specialises in hot water system installation and repairs, ensuring consistent and reliable hot water for homes and businesses. We assess your requirements, recommend suitable systems, and carry out repairs or installations efficiently, using quality materials and compliant workmanship.

What We Cover:

- Hot water system installations & repairs
- Gas and electric hot water systems
- Faulty thermostats and elements
- Pressure valve repairs
- System upgrades and replacements

Gas Fitting

Our gas fitting services are carried out by fully licensed and qualified professionals. We deliver professional gas fitting services for homes and businesses, handling installations, repairs, and upgrades with care. We maintain gas systems in compliance with Australian standards, ensuring safe operation and peace of mind for property owners.

What We Cover:

- Gas appliance installations
- Gas line repairs and upgrades
- Gas leak detection
- Gas hot water connections
- Compliance and safety checks

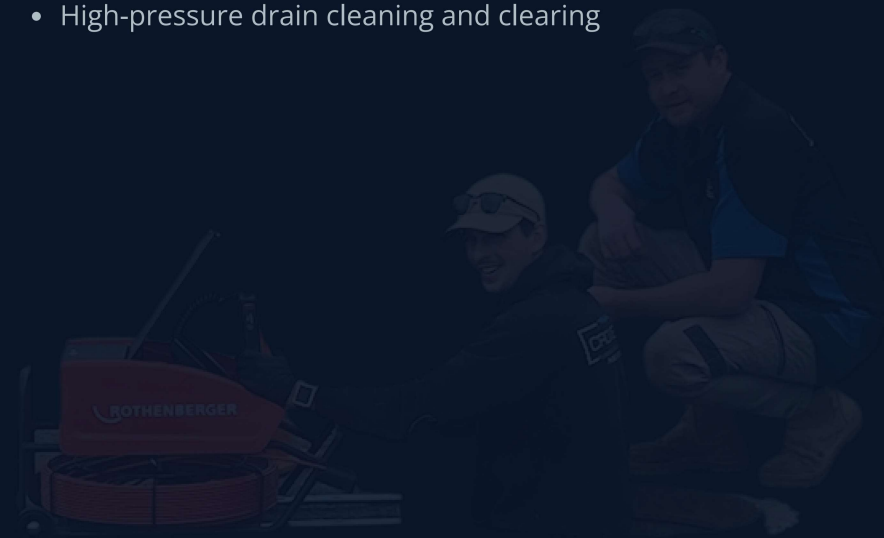

Blocked Drains & CCTV Inspections

We provide blocked drain and drain inspection services to quickly identify, clear, and prevent drainage issues. We use proven methods and inspection technology to locate blockages, restore proper flow, and assess pipe conditions, helping prevent recurring issues and costly damage.

What We Cover:

- Blocked sinks, toilets, and showers
- Sewer and stormwater drain blockages
- Tree root intrusion detection
- Drain inspections and condition assessments
- High-pressure drain cleaning and clearing

Drainage & Excavation

We provide professional drainage and excavation solutions for effective water management and underground plumbing systems. We assess site conditions carefully and carry out excavation and drainage work with precision to prevent flooding and long-term water damage.

What We Cover:

- Stormwater and sewer drainage systems
- Trenching and excavation works
- Subsoil and surface drainage
- New drainage installations, repairs, and upgrades

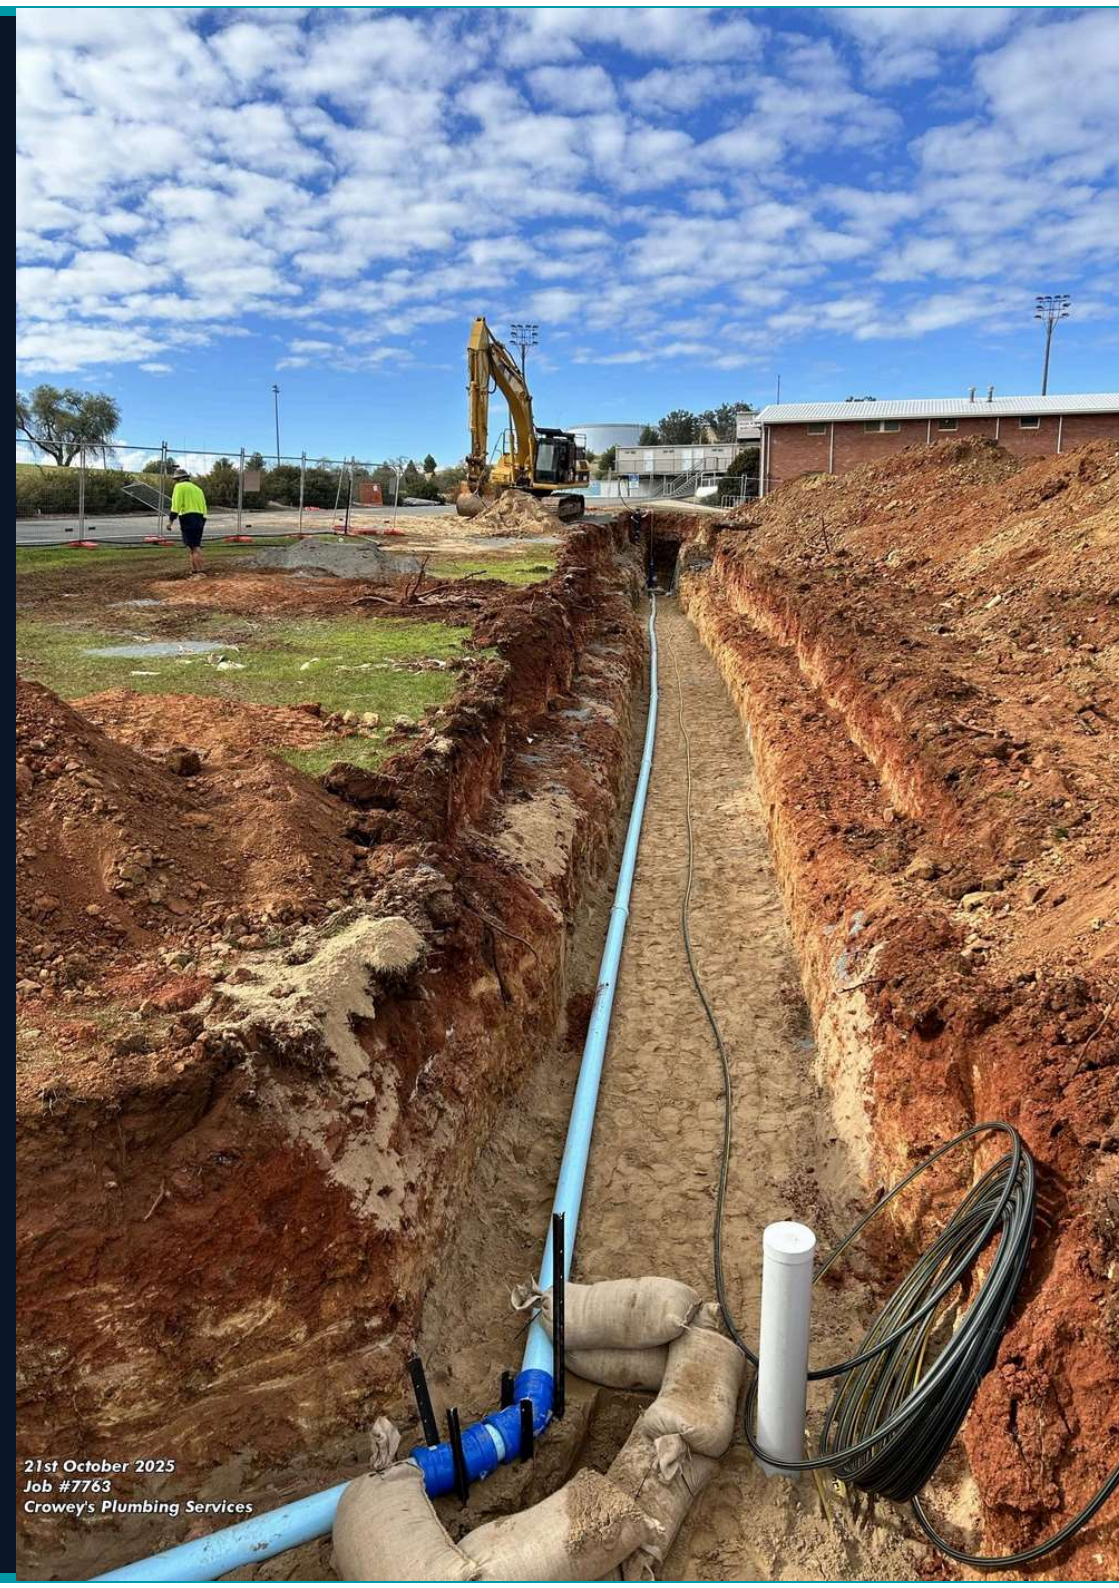

Commercial Plumbing

We deliver reliable plumbing maintenance and comprehensive services tailored specifically for businesses, educational institutions, and commercial properties. We work efficiently to ensure your facilities stay compliant, operational, and safe with minimal disruption to your daily operations.

What We Cover:

- Commercial property maintenance
- School and educational facility plumbing
- Business and retail site repairs
- Scheduled preventative maintenance
- Essential commercial plumbing upgrades

Crowey's Plumbing Services

High-Access & Specialised Plumbing

We deliver specialized plumbing solutions for elevated and complex structures, utilizing certified machinery to handle challenging high-level installations and repairs safely. Equipped for work-at-height operations using cranes and scissor lifts, our team carries out overhead pipework, roof-level plumbing, and heavy equipment positioning with complete precision and compliance.

What We Cover:

- Overhead and high-level plumbing installations
- Scissor lift-assisted plumbing repairs and maintenance
- Crane-assisted placement of heavy plumbing equipment and tanks
- Roof-level commercial drainage and pipework
- High-risk height access safety planning and execution

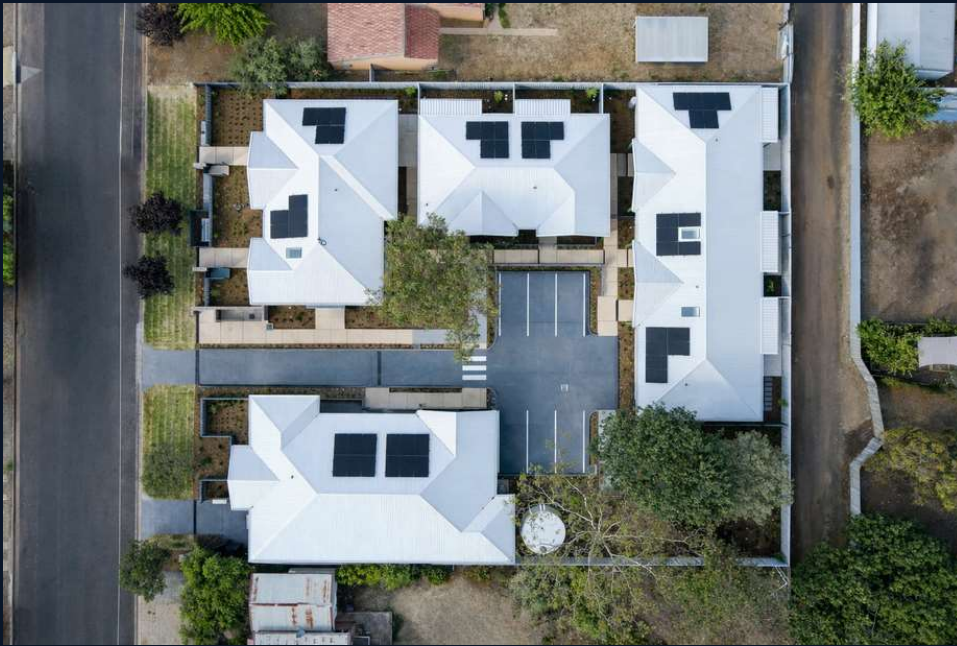

Recent Works

SES Shed in Parkes

Proud to have delivered the complete internal and external plumbing package for the new SES Headquarters, working alongside Joss Group as the principal contractor.

Our team was responsible for the installation of all plumbing services throughout the facility, including fire hose reels, cleaners' rooms, laundry facilities, bathrooms, kitchen amenities, and external plumbing infrastructure.

Recent Works – Continued

9-Unit Residential Development – Parkes

Crowey's Plumbing Services was proud to complete the full plumbing installation for this modern nine-unit residential development in Parkes. From the underground drainage and sewer infrastructure through to the final fit-off of kitchens, bathrooms and laundries, our team delivered a complete plumbing solution from start to finish.

This project highlights our capability to manage large-scale residential developments while maintaining the same quality workmanship and attention to detail we're known for.

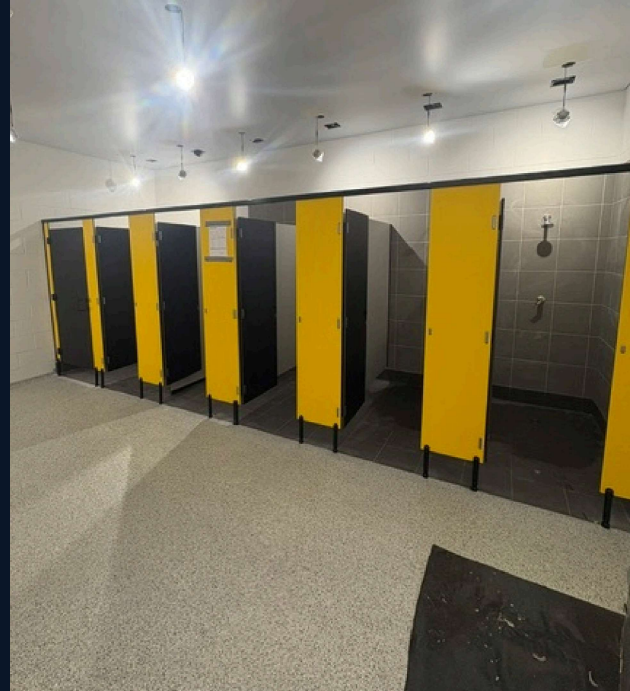

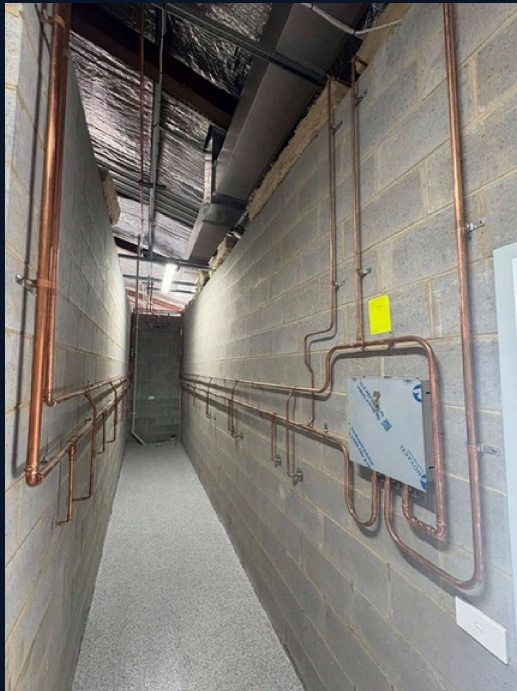

Recent Works – Continued

Eugowra Amenities Upgrade

Crowey's Plumbing was proud to deliver the complete plumbing package for the new amenities facility in Eugowra.

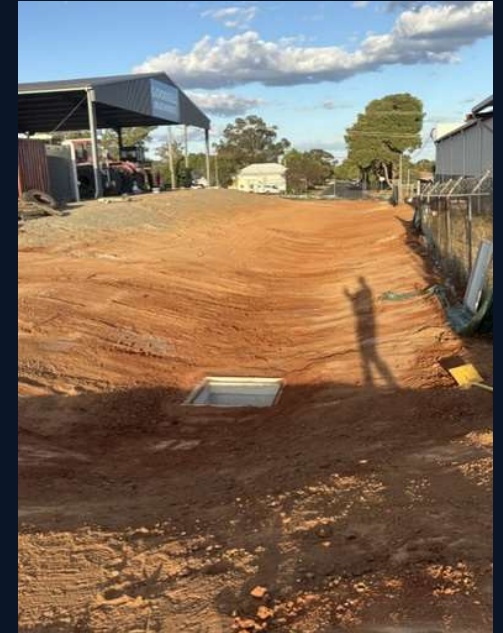

Our scope included the installation of hot and cold water services, sanitary drainage, sewer and stormwater infrastructure, fixtures and fittings, and final fit-off to provide a reliable, compliant plumbing system for the new community facility.

Recent Works – Continued

Civil Stormwater from a Stormwater Retention Dam

Construction of major stormwater infrastructure, including a 300 mm stormwater main, precast pits and connections to a retention drainage system.

Meet the Team

Local Parkes parents **Sam and Christie Crowe** run Crowey's Plumbing Services. Combining 24+ years of hands-on plumbing expertise with seamless office management, they pride themselves on honest, reliable service and supporting their local community.

A valued member of Crowey's Plumbing for over six years, Senior Tradesperson **Lachy** brings post-trade expertise, quality workmanship, and mentorship to our team. When he's not on the tools, he's spending time with his family or on the golf course.

Brody recently completed his apprenticeship at Crowey's Plumbing and steps up as a qualified tradesperson with a positive attitude and strong work ethic. Outside of work, he loves four-wheel driving, soccer, and automotive projects.

First-year apprentice **Thommo (Lachlan)** brings a hands-on building background, strong work ethic, and great humor to Crowey's Plumbing. Outside of work, he proudly plays football for the Parkes Spacemen.
